This Policy applies to all Macopharma's activities, its employees, all its legal entities. In addition, Macopharma wishes to associate to its efforts all its stakeholders and share with them its values.

This Policy will allow Macopharma's personnel and agents to get themselves acquainted with the anti-bribery laws and the appropriate reactions to have.

The principles within this Policy must strictly be respected. Any violation of this Policy can lead to disciplinary sanctions and the termination of any contractual relation.

Regarding corruption, Macopharma does not distinguish between public official and private person. Corruption shall not be tolerated within Macopharma, regardless of the beneficiary of the bribe.

II. Fundamental principles

Macopharma acts with integrity.

Macopharma's personnel and/or any other party acting in the name of Macopharma must act with integrity and avoid any actions susceptible to harm the companies' reputation.

Macopharma dismisses corruption in all its forms.

Macopharma's personnel and/or any other party acting in the name of Macopharma enjoin itself from doing any act of corruption, being public or private. This ban applies regardless of local customs.

Macopharma's interactions with its clients are transparent and ethical.

Macopharma gives great importance to conforming itself with all the laws and regulations of the pharmaceutical industry.

Macopharma requires that all parties acting in name and for its benefits like but not limited to, agents, sales representatives, consultants or lawyers, comply with our principles when acting for us.

III. Macopharma's code of conduct

Corruption is the act to give, propose or promise something of value, material or immaterial, in order to gain an advantage. Agreement between the corruptor and the corrupt is enough to characterize a corruption scheme and justify penal prosecution.

Propose to a public official to give an internship to his/her children in exchange for a favourable look on a commercial offer can be view as corruption.

In order to apply its principles, Macopharma implement a business partner selection process. Payment of such business partners can only be performed if they are legally correct, within the scope a written and signed contract and against a fully form invoice.

Use an intermediary without a proper due diligence nor contract is a risk that Macopharma is not willing to take.

Regarding gifts, hospitalities and entertainments, Macopharma strictly comply with the regulation. During a business meeting, a congress or an event, do not pay an entertainment (concert, tickets for a soccer game ...) to a participant except if it is appropriate and incidental to the event. Do not pay for side traveling or extended stay (pay for a longer stay than the duration of the congress or agreeing to pay for expanses with a stopover).

For example, even for a known specialist, invitation to a sport event in a VIP logia is prohibited.

Before any new relationship with a business partner, or offering a gift or a hospitality or an entertainment, ask yourself if Macopharma's reputation, yours or the one of the other person will be tarnish if information about it appears in the front page of a newspaper. If so, then do not act. This is common sense Macopharma ask you to have the correct behaviour is such situation.

It is sometimes difficult to say no. In some countries, for some cultures, say no to a gift might be considers as an offense. In such circumstances, you can refers yourself to this Code and use it as justification to your refusal.

Subventions or donations must be dealt with extreme caution and with the legal and compliance department.

Macopharma forbids all facilitation payments, regardless of the local legislation.

For example, a custom agent requesting some cash money to allow you in the country. In such situation, refuse to pay and contact the legal and compliance department.
